25. 26.

Y

VIII-Read the passage carefully and answer the questions.

The Giant Panda is a superstar in the animal kingdom. The forests where pandas live are becoming smaller and smaller, so they may not be able to find mates or food anymore. They only live in the forests of China. The Giant Pandas' favorite food is bamboo. Sometimes they also eat small animals and insects, as well as fruits. Giant Pandas are part of the bear family. When awake, they are almost always eating bamboo. They just love to eat!

In China, the Giant Pandas' home, the number of people is growing. Homes and farms are being built here and there in the forests, and the places where they live are being split apart. Now they live in small groups in many small forests, and it's very hard for male pandas to find mates. They're even having trouble finding their joy---bamboo.

There is a plan to help the Giant Panda. By building paths, all of the separate forests that the pandas live in will be connected. To do this, some farmlands will have to be returned to nature. This means it will be difficult to save the Giant Panda if people don't stop developing.

27. What may happen if the forests become smaller and smaller?
.....

28. Do the Giant Panda live in small groups now?
.....

B. True or False.

29. The Giant Panda live in all parts of China.
